Portfolio: <https://kevinhenleycode.github.io/Portfolio/>

GitHub: <https://github.com/KevinHenleyCode>

Technical Skills:

HTML	jQuery	MacOS	iOS
CSS	Bootstrap	Windows	Android
JavaScript	Node.js	Linux	Microsoft Office

Top Projects:

Password Generator:

- Generates a random password based on the user's choices
- HTML/CSS/JavaScript
- https://kevinhenleycode.github.io/Password_Generator/

Group Project 1:

- Takes in two APIs and uses them together to translate text and filter unwanted words. Then takes those words and puts them through a text to speech generator that can be summoned with a button click.
- HTML/CSS/JavaScript/jQuery/Bulma
- https://kevinhenleycode.github.io/Group_Project_1/

Work Day Scheduler:

- Lets the user input events for the current day by the hour. Then tells them whether the event was in the past, present or future.
- HTML/CSS/JavaScript/jQuery
- https://kevinhenleycode.github.io/Work_Day_Scheduler/
